BUXTON BATH CHARITY

THE ONE HUNDRED AND TWENTY-SIXTH
ANNUAL REPORT

for the Year ended March 31st, 1937.

The Committee of Management has pleasure in submitting its Annual Report and Statement of Accounts for the year ended 31st March, 1937.

President.

It is a great pleasure to report that, in spite of the onerous nature of his public duties, The Most Honourable The Marquess of Hartington, M.B.E., has kindly consented to accept the office of President for the year 1937-38.

Having previously held this office, in the year 1925-26, His Lordship has a complete conversance with the nature and importance of the work of this great National Hospital, and both he and his family have, since its inception, been intimately associated with the Hospital and have rendered great service by their sympathy and support.

Management.

Mr. J. T. Fox has been appointed one of the representatives of the Governors of the Cotton Districts Convalescent Fund in place of Mr. T. F. Kershaw.

The transfer of the Investments and Properties to the New Trustees has now been completed.

Additions and Improvements.

From time to time extensive improvements and additions have been effected, and the progressive policy of the Committee of Management during the last twenty-five years has made possible the provision of New Bathing Departments, Dining Hall for Patients, Kitchens, Laundry, Nurses' Home and Facilities for Original Research.

Further developments and additions are, however, essential, and the Committee of Management after prolonged consideration and consultation with the Architect, Sir Percy Worthington, F.R.I.B.A., have decided upon an immediate programme which includes :—

1. Extension of the Thermal Departments, to afford a continuity of treatment by means of :—
 - Dressing Cubicles.
 - Rest Rooms.
 - Additional Bathing Accommodation.
 - Adequate Ventilation and Natural Lighting.
2. New Male and Female Wards for the accommodation of cases requiring prolonged treatment.
3. Adequate Reception and Consulting Rooms.
4. Modernisation of Existing Buildings.

These immediate requirements are estimated to cost from £30,000 to £35,000. They are, however, only the initial needs and if the Hospital is to be thoroughly modernised, a much greater expenditure will be entailed.

As from time to time it has been found necessary to expend large sums of money in order to maintain the efficiency of the Hospital (see page 42), which has resulted in a serious limitation of the Invested Capital of the Hospital, it has not been possible to provide for such an extensive expenditure as these improvements will involve. It has been necessary, therefore, to appeal for help in this connection and although the appeal is still in its very early stages there has been a ready response, and the Committee is encouraged to hope that the necessary amount will quickly be provided.

A detailed list of contributions to the Extension Fund Appeal will be found on page 67 of this Report.

During the year two of the Boilers have been equipped with Mechanical Stokers, and although the cost was fairly heavy, not only has considerable economy been effected, but much greater efficiency has been obtained.

The renovation of the Rest and Recreation Rooms has now been completed and the greater comfort, together with the facilities for rest, which is coincident with thermal treatment, is of immeasurable value.

Finance.

The Ordinary Income has been well maintained, and it is gratifying to record that most sources, including annual subscriptions, upon which the Voluntary System so largely depends, have slightly increased although unfortunately there has been a marked reduction in the amount received from Approved Societies in consideration of services rendered to their members, consequent upon the reduction of Hospital Benefits.

Ordinary Expenditure has increased by just over £1,000 and this is attributable to increasing cost of provisions and establishment charges, and extra staffing in the Massage and Electrical Department, an increase which became very necessary on account of the great increase in the volume of work undertaken, detail of which is given on page 43.

The expense of the appeal to date are also included, which is of course a non-recurring item.

Extraordinary expenditure amounting to £1,093 has been incurred by the renovation of the rest rooms and the installation of mechanical stokers.

There has unfortunately been an excess of expenditure over income, a deficit of £395 9s. 10d. being thereby incurred.

As a result of our Annual Flag Day, a very welcome sum accrued to the Hospital and all who helped with this splendid effort are to be congratulated. Particular mention must, it is felt, be made of Mrs. W. F. Mill, Mrs. Percival Williams, and the ladies who assisted with the Fruit and Flower Stall.

The Flag Day receipts include the proceeds from a Clay Pigeon Shoot, organised by Mr. and Mrs. Scott, of Chapel-en-le-Frith, who are not only to be congratulated, but sincerely thanked for this very successful innovation.

A comparative statement of the receipts during the past three years from this source is given hereunder:—

	£ s. d.	£ s. d.
1936.....	138 15 4	
Clay Pigeon Shoot	69 3 5	207 18 9
1935.....		163 19 1
1934.....		130 8 11

The particular attention of Subscribers is earnestly directed to the fact that the average cost of three weeks' treatment for each In-Patient now amounts to £5 7s. 2½d., over five times as much as the minimum subscription.

As the Committee would be reluctant to contemplate any reduction in the privileges accorded to Subscribers it is suggested that any Subscriber of less than £4. 4s. 0d., sending a Patient for treatment, might supplement the subscription by a special donation to counteract this deficiency.

It is with heartfelt thanks that the Committee acknowledge the receipt of the undermentioned Legacies :—

The Late Miss Helen Woolley Winterbottom	500	0	0
The Late Mr. W. O. Brock (completion)	22	10	0
The Late Miss Eliza Pritchard	5	3	3

The bequest of the late Miss Helen Woolley Winterbottom was made in memory of her friend, the late Joshua John Cox, M.D., and his wife, Mrs. Cox, in recognition of their great kindness to the testatrix and many others. A condition imposed was that the legacy should be invested as a fund, the income whereof to be used for the promotion of research work in connection with rheumatic diseases and the treatment thereof. This condition has been complied with, and a tablet has been erected to commemorate this bequest.

Your Committee deemed it expedient to place all legacies received in a special account instead of placing these amounts to the Treasurer's Accounts as heretofore and, accordingly, a Legacies Suspense Account has been opened with the bankers. (See page 56).

Endowments.

The Accounts of the Holden, The Wadsworth, The Swindells Endowment Fund, The Wilmot Relief Fund, Samaritan Fund, Downes' Charity, Hannah Ashton-Rigby Fund, Annie Hopwood Kinch Fund, Ada Mary Cryer Fund, and Emily Wadsworth Charity Fund, are submitted. Under these Funds many destitute cases have been assisted with railway fares, needful clothing, or help in other forms.

The Committee are most grateful to the Clergy of the above-mentioned Churches for their advocacy of the claims of the Hospital, and they sincerely trust that other Churches in the neighbourhood, and, indeed, in all parts of the United Kingdom, may see their way to support this National Institution.

An opportunity is afforded the Patients to help in this direction by making the claims of the Hospital known to their Clergy and Ministers of Religion, and by suggesting that Collections might be made in the Churches and Chapels in their own neighbourhood.

In-Patients	197,987
Out-Patients	26,323
	224,310

The value of the ideal surroundings, the pure tonic air, together with the beneficial effects of the thermal waters, careful and accurate diagnosis, and the up-to-date methods of treatments are amply exemplified by the results achieved, 185,096 patients, or 82.43% of the total number treated having been discharged, after treatment, as cured or very much relieved.

In-Patients.

During the year 1936-37, 3,195 In-Patients have been admitted, including 180 remaining on the books on March 31st, 1936 :—

In-Patients admitted from April 1st, 1936, to 31st March,
1937.....

3,195

On account of the prevalence of tonsilitis it was decided that admissions should be suspended for a short period during November, and as a consequence there was a slightly smaller number of Patients admitted during the year.

Research.

Discoveries of an epoch making nature are not everyday occurrences, but progress of great importance is constantly being made by the skilled research workers, and such discoveries when co-ordinated provide new and important steps in the methods of attack upon the extremely distressing and crippling conditions for which Rheumatism is responsible.

Scientific research is of paramount importance, and in the specially staffed and equipped laboratories at this Hospital continuous research into the bacteriology and chemistry of the diseases treated is carried on with relentless vigour. The correct differentiation of the various types of rheumatism calls for careful and accurate diagnosis, and in this connection the close collaboration of the Pathological, Bacteriological, Bio-chemical and X-Ray Departments is of immeasurable value to the Physician. Great expense is of necessity incurred, but much valuable work is being accomplished. Not only have the Patients derived appreciable benefit, but the Hospital has gained a reputation for achievement and scientific prestige which is international.

Acknowledgments.

The Library facilities kindly afforded by the Buxton Corporation continue to provide an endless source of comfort and instruction to the patients.

The Committee gratefully acknowledges the aid given to the Institution year by year by many outside agencies in Buxton. The Buxton Corporation has allowed a box for the reception of newspapers to be placed in the Pump Room, and donation boxes to be placed in the Cooling Room at the Natural Mineral Water Baths. Collecting boxes have also been placed in various Hotels, Boarding-houses, Banks, etc., and the Committee is very grateful for the amount received from this source.

Thanks are due to the proprietors of the "Buxton Advertiser" and "Buxton Herald," for having inserted gratuitously the annual and weekly reports.

The Committee very much appreciates the kindness of those ladies and gentlemen who sent their cars frequently during the summer months to take for drives those patients who were not able to walk. By this means a large number of patients not only derived great benefit, but also much pleasure by the facilities afforded them for seeing some of the beauties of the surrounding districts.

Special thanks are also due to the Chief Officer of the Local Fire Brigade, for his kindness and trouble in giving the Staff of the Hospital instruction in Fire Drill once a month.

The Cinema equipment, which was provided by the generosity of Co-operative Societies throughout the country, continues to be a source of comfort and joy to the patients, and thanks to the generosity of Messrs. Universal Pictures Ltd., Fox Film Co. Ltd., Metro-Goldwyn-Mayer Pictures Ltd., First National Films Ltd., Pathé Freres Ltd., and Gaumont Ideal Ltd., in providing films free of cost, it has again been possible to provide a first-class entertainment each week.

Thanks are also due to the many friends of the Hospital who have from time to time organised concerts, etc., for the entertainment of the patients.

Honorary Officers.

The grateful thanks of the Committee are due to all members of the Honorary Medical Staff, the Honorary Treasurers, the Honorary Dentists, the Honorary Chaplain, and also the House Visitors for the care and attention they at all times devote to the Patients and to the interests of the Hospital.

THE DEVONSHIRE ROYAL HOSPITAL
BUXTON.

THE COST OF ENDOWING A BED IS
£1000.

It is greatly to be regretted that there are so few endowed beds at this large national hospital, and it is felt that many of our supporters who have lost relatives and friends could in no better way perpetuate their memories than by endowing and naming a bed in this hospital.

During the year the following papers were published from the Department :—

1. "Aetiological Relation of the Streptococcus Hæmolyticus to 'Rheumatic' Diseases." This paper was published in the British Medical Journal, October, 1936, jointly with Dr. W. Goldie, being a resumé of the paper given to the Association of Physicians at their annual meeting held in Manchester.
2. "The Hæmolytic Streptococcus and Rheumatic Diseases." This was published in the Journal of State Medicine, November 1936, being a resumé of the paper given to the Congress of Hygiene, Edinburgh.

A thesis is in preparation embodying the work done in this Department, on the relation of the hæmolytic streptococcus and chronic rheumatic diseases.

A report on the relation of the blood complement and rheumatic diseases will be sent to the Halley Stewart Trust, who loaned the necessary apparatus for this purpose.

The Department was honoured during the year, in recognition of its scientific papers, by the election of the Pathologist to a membership of the Pathological Society of Great Britain and Ireland.

In resigning my position as Pathologist, allow me to thank all members of the Honorary Staff of the Hospital who have given me their support and extended to me valuable help in my research work.

I especially thank Mr. J. Race, F.I.C., my colleague and friend, for his willing co-operation which has made my stay at the Devonshire Royal Hospital a happy one; and also Miss M. Harrison, for her valuable assistance.

GRIFFITH JOHN GRIFFITHS,

REPORT OF THE BIOCHEMICAL DEPARTMENT.**For the Year ending March 31st, 1937.**

I beg to submit the Report on the work of the Biochemical Department for the year ending March 31st, 1937.

During the year, 2,590 examinations have been made and this total is made up as follows :—

Urine.	Quantitative	12
	Qualitative	189
Blood.	Suspension Stability	1,869
	Uric Acid, etc.	237
	Calcium,, Phosphorus	1
	Phosphatase	46
	Glucose	21
	Renal function	15
	Pigments	185
	Urea	15
	Cerebro-Spinal Fluid	3
	Gastric Juice, Test Meals	19
	Water	16
	Milk	12
	Miscellaneous.....	10
		<hr/>
		2,590

This total, it should be noted, does not include either examinations made for the Buxton Clinic or those in connection with research work.

During the past year the investigations on blood pigments has been continued, and the tentative conclusions mentioned in the last report have been confirmed. If the vitamin deficiencies found in the Hospital patients can be regarded as representative of the artisan class generally, they amply confirm the conclusion of Sir John Orr, based on a study of diets, that over half the population of this country subsists on a diet deficient in these essential food factors.

The results obtained in this research have been published in this year's Report of the Arthritis Committee of the Royal College of Physicians, and give no support to the hypothesis that a vitamin deficiency may be the specific cause of rheumatic diseases. It is possible, however, that in some cases, such deficiencies so reduce the general resistance as to enable the ætiological factor to initiate the disease process.

The paper on "Laboratory Findings in Rheumatic Diseases," read at Edinburgh last year, has recently been published in the Journal of State Medicine, and a request has been received for permission to reprint it in the Journal of Clinical Medicine.

In conclusion, I would again thank the Chairman and Members of the Research Society for their continued support and encouragement, and the General Superintendent and the Hospital nursing staff for their assistance and co-operation during the year.

JOSEPH RACE,
Biochemist.

MASSAGE DEPARTMENT.

As an augmented Annual Income
is urgently needed you are earnestly
requested to communicate to the
General Superintendent and Secretary
the names and addresses of any of
your friends whom you consider we
could interest in the work of the
Hospital and so gain their annual
support.

Will you also be good enough to
circulate this Report when you have
perused it?

THANK YOU !
